GERMINEX TALC TG

GERMINATION INSURANCE

Germinex Talc TG is a premium quality, easy-to-use seed treatment designed to maximize germination, vigor, and health in fine turfgrasses.

Germinex Talc TG contains naturally derived extracts balanced with essential secondary and micronutrients providing:

- **Economical Investment for Seed**
- **Enhanced Germination**
- **Easy Divot Mix Additive**
- **Early Root Development**
- **Improved Vigor Under Stress**
- **Stand Uniformity**
- **Stress Tolerance**

The lubricating talc carrier facilitates application and encourages even distribution of seed, particularly in unfavorable conditions such as high humidity environments.

PROFESSIONAL USE GUIDELINES

NUTRIENT CONTENT

Calcium (Ca)	2.00%
Magnesium (Mg)	0.50%
Boron (B)	0.02%
Copper (Cu)	0.05%
Iron (Fe)	2.00%
Molybdenum (Mo)	0.0005%
