

GROFAX 33

MICROBIAL NUTRITION

Grofax 33 is a superior nutritional supplement for the encouragement of microorganism health and proliferation in soils. It contains thirty-three elements identified by microbiologists as essential food sources for beneficial bacteria, including:

- Vitamins
- Plant Enzymes
- Phytochemicals
- Amino Acids
- Organic Surfactants
- Humic Acids

Grofax 33 is designed to provide supplementary nutrition for existing populations as well as needed sustenance for microorganism inoculants. Additionally, its constituents include elements to ensure infiltration into and retention within the root zone.

PROFESSIONAL USE GUIDELINES

4

APPLICATION: **Grofax 33** can be applied with any type of spray equipment that delivers an even spray mist to the target area. Apply with a spray volume of 60-100 gpa (600-800 L/ha). **Grofax 33** is an ideal tank mix companion with select soil bacteria products.

RATE OF APPLICATION: As a general soil bacteria companion product, apply 6-9 fl oz / 1000 sq ft (20-30 L/ha) immediately after core aeration. When used in surface application with soil bacteria that compete with soil algae food sources, apply 1.5-3.0 fl oz / 1000 sq ft (5-10 L/ha).

COMPATIBILITY: **Grofax 33** can be tank mixed with select soil bacteria cultures such as **Terrabact**, **Blackout**, and many others. **Grofax 33** is tank mix compatible with many systemic fungicides, insecticides, and nutrient solutions. Jar test when in doubt. For best mixing results, remove tank strainer prior to product addition.

Net Weight: 9.16 lb/gal
1.098 kg/L
