PHLEX-MAG

FOLIAR MAGNESIUM SUPPLEMENT

Phlex-Mag is a highly-concentrated liquid magnesium product designed to provide immediately available magnesium for identified deficiencies in turf grass.

- Promote Chlorophyll Synthesis
- Improve Color
- Optimize Iron Utilization

Phlex-Mag is designed to help correct identified magnesium deficiencies. Extreme deficiencies should be corrected over a period of time with several applications. Frequent testing is recommended to ascertain magnesium levels and to maintain magnesium at desired levels.

PROFESSIONAL USE GUIDELINES
