PROFESSIONAL USE GUIDELINES ⑧

Application:

Shake well before use. Mix with water prior to adding additional products. Store in a temperature-controlled location at or above 45°F (7°C). Keep opened bottles closed tightly and out of direct sunlight. Unopened bottles have a two-year shelf life from the date of manufacture. Exposure to high temperature & direct sunlight can lower biological content.

CAUTION: Bloating or expansion of bottle is possible during transportation, sitting over time, or during heat. If this occurs, slowly open lid to release gas buildup.

Rate of Application:

Apply 32 fl oz / acre (1.9 L/ha) prior to Spring when soil temps are around 50°F (10°C) and warming up. Maintain 32 fl oz / acre (1.9 L/ha) monthly until soil temps are below 50°F (10°C).

Compatibility:

OPERATORS is tank mix compatible with many systemic fungicides, insecticides, and nutrient solutions. Jar test when in doubt. For best mixing results, remove tank strainer prior to product addition.
