

# BIO M.R.E.

**BENEFITS:**

POWERFUL BIOLOGICAL FOOD SOURCE

STIMULATES SOIL MICROBES

ENERGIZES SOILS AND TURF PLANTS

*Rooted in Science*

# BIO M.R.E.

**BIO M.R.E.** is a solution of energy producing bacteria coupled with a blend of sugars that are a food source for the soil and plant.

## CONTAINS NON-PLANT FOOD INGREDIENTS

Azotobacter vinelandi*	400,000 CFU/ml
Lactobacillus acidophilus*	400,000 CFU/ml
Glucose*	10.0%
Sucrose*	10.0%
Fructose*	8.0%
Maltose*	4.0%

\*400,000 CFU/ml after activation

**Net Weight:** 8.48 lb/gal (1.016 kg/L)

## PROFESSIONAL USE GUIDELINES ⑤

### Application:

Shake well before use. Mix with water prior to adding additional products. Store in a temperature-controlled location at or above 45°F (7°C). Keep opened bottles closed tightly and out of direct sunlight. Unopened bottles have a two-year shelf life from the date of manufacture. Exposure to high temperature & direct sunlight can lower biological content.

**CAUTION:** Bloating or expansion of bottle is possible during transportation, sitting over time, or during heat. If this occurs, slowly open lid to release gas buildup.

### Rate of Application:

Apply prior to Spring when soil temps are around 50°F (10°C) and warming up. On greens, apply 32 fl oz / acre (1.9 L/ha). On tees, fairways, and sports turf, apply 16-32 fl oz / acre (0.95-1.9 L/ha). Maintain 16-32 fl oz / acre (0.95-1.9 L/ha) monthly until soil temps are below 50°F (10°C).

### Compatibility:

**BIO M.R.E.** is tank mix compatible with many systemic fungicides, insecticides, and nutrient solutions. Jar test when in doubt. For best mixing results, remove tank strainer prior to product addition.
